Memorandum

To: Parents and Community Leaders

From: Scott Lively,  
President, Abiding Truth Ministries

**Re: Equal Time Policy for School Districts**

The attached Equal Time Policy resolution is a tool for countering the increasing homosexualization of the public school culture. Parents should submit the policy resolution to the school board and demand a vote on it. You will probably need a friendly board member to put it on the agenda, so first spend some time talking with individual board members privately rather than offering the resolution cold at a meeting. Lacking a friend on the board, you might get it on the agenda anyway if you have a large contingent of supporters at the meeting in which you submit it.

Also attached is a petition form in support of the resolution. You will want to gather a respectable number of signatures to show popular support for it in the community (and to help you identify your allies in the community).

A vote on the resolution will expose the hard-core pro-homosexual school board members who will not want it to pass, but it will be very hard for "moderates" to oppose. If they defeat it, they will hand challengers a key issue in the next school board race. If they pass it, pro-family people will then be able to get our evidence and arguments to the kids wherever the other side has gotten a foothold in a school.
